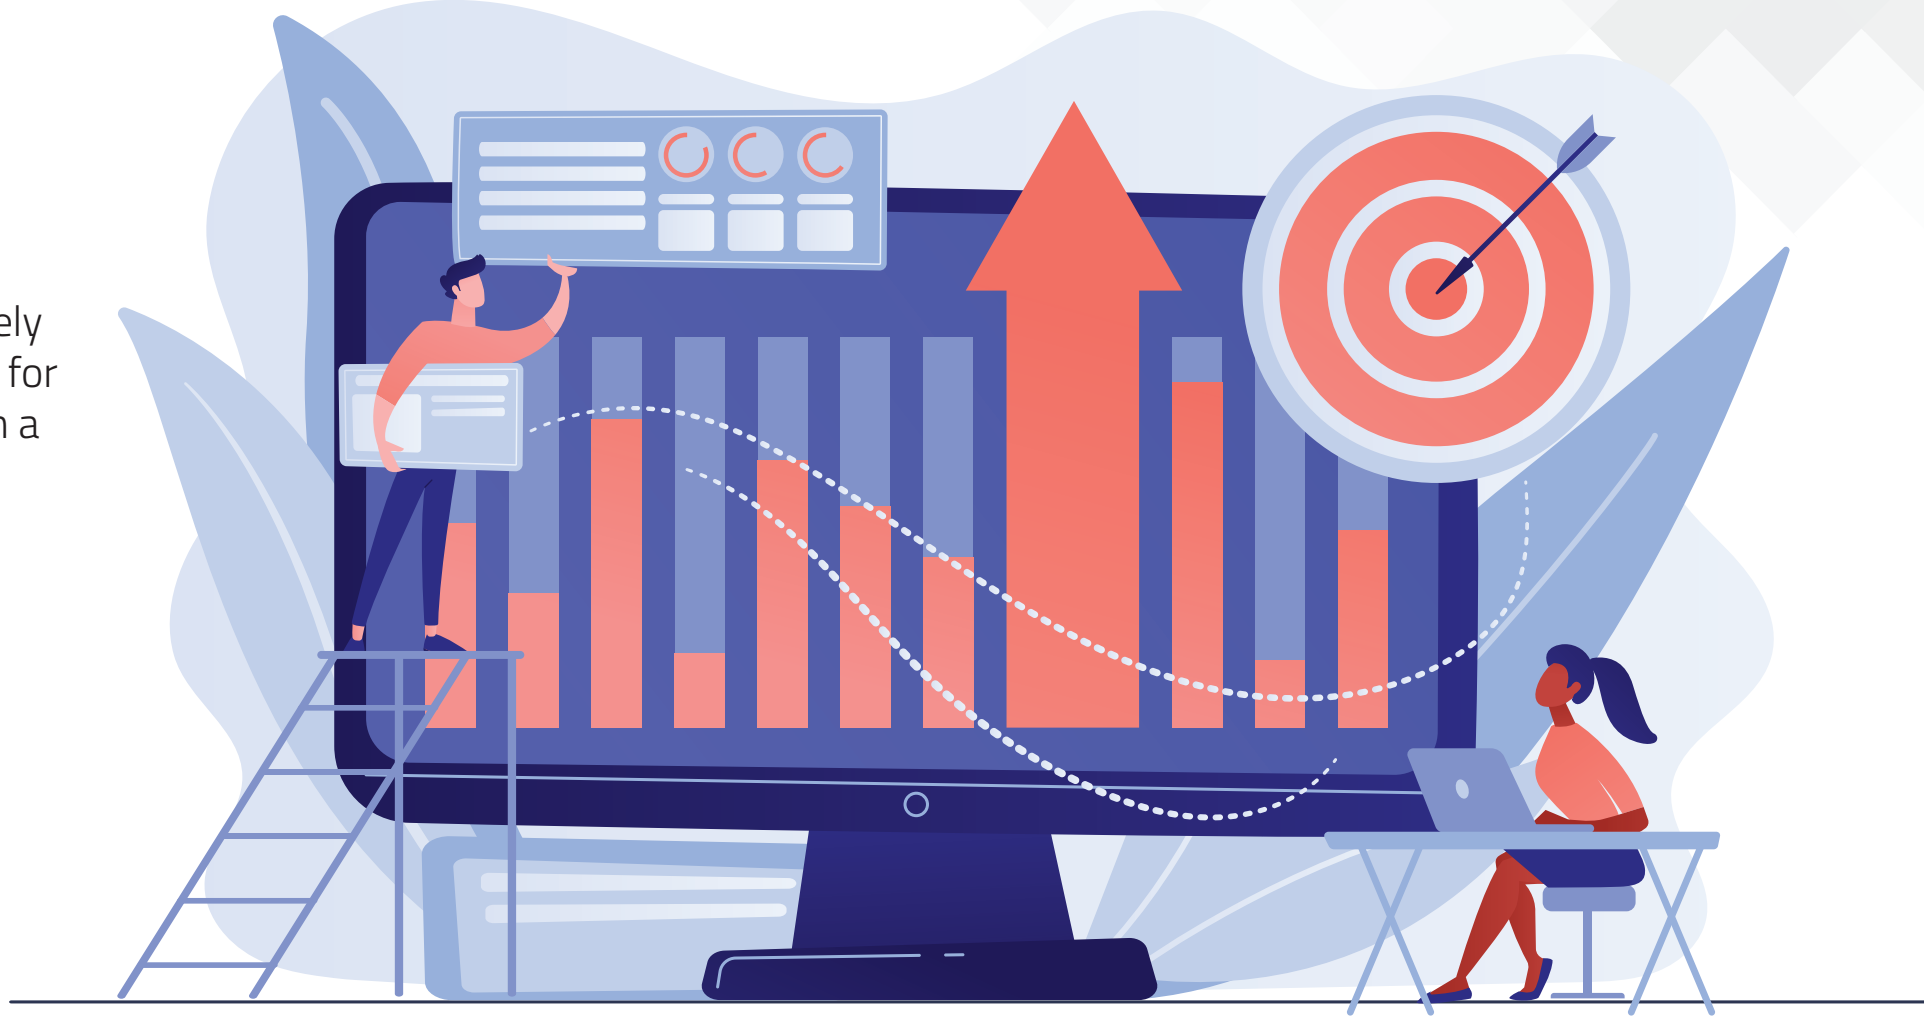
Case Study

ApoGI™ as a MDR Visualization

www.geninvo.com
North America | UK | Europe | India

The **Challenge**

Organizations need a solution that can effectively generate KPI and metrics for MDR management within a metadata platform.



Addressing the **Challenge**

Being a MDR platform, ApoGI allows the data visualization module build to access the metadata repository. ApoGI can Host numerous dynamic KPI and metrics dashboards, as per the organization's need. ApoGI provides the capability of configuring the dashboards for each user. Additionally, ApoGI offers user-friendly GUI, permitting users to custom build new plots and graphs as needed.

Outcome

ApoGI presents a MDR visualization module, which directly links to MDR and allows user to extract KPIs to monitor, increase productivity, and manage regulatory compliance.

Apart from the Plug and Play offerings of our premium product **ApoGI™**, we also provide **Automation of Data Conversion** for CROs and Pharmaceutical Companies to avail Data and Document Anonymization services.
