

**DATALUTION™**

**ACCURATELY  
GENERATE  
SYNTHETIC  
DATA FOR LIFE  
SCIENCE DOMAINS**

**TO SCHEDULE A DEMO, CONTACT:**

## PRODUCT OVERVIEW

- We at GENINVO, help generate the synthetic data for Life science domains by simulating the data for clinical studies of similar study design.
- Zero risk of deidentifying patients.
- Allows the necessary stakeholders to have the data they need at the right time.

### Synthetic data helps to

**Achieve Cost  
& Time efficiency**

**Explore Outliers  
(rare data scenarios)**

**Resolve Security  
& Privacy Issues**

**Perform necessary  
computations**

**Achieve accurate  
predictions on Data models**

### Datalution increases the efficiency of the study setup process within Clinical Trials

**Edit checks  
validation**

**User acceptance  
testing process**

**Validating the programs  
used for analysis**

GENINVO™

**IDEAS DELIVERED  
INTUITIVELY**

GENINVO is the go-to partner for our life science industry delivering Innovative software solutions and Data Science services. We are focused on solving the toughest and complex business problems and produce transformative solutions. Our unique combination of deep expertise in life sciences, leading edge technologies and software development, data-engineering practices, cloud expertise, and artificial intelligence research truly help bring life-changing treatments to patients faster.
