GENINVO™

DocQC™

DocQC is an automation tool that streamlines medical writing reviews, reducing manual effort and time consuming review cycles

Challenges

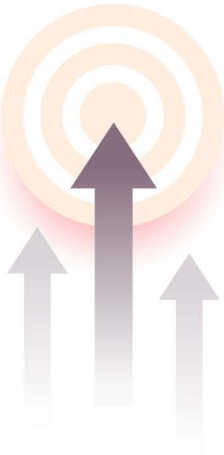

Manual Review
Time-consuming and resource intensive

Repetitive
Leads to inefficiencies and fatigue

Scalability Challenges
Difficult to manage across multiple studies

Delayed Turnaround
Slows down regulatory submissions

High Operational Costs
Increases cost per document

GENINVO™

Functionalities

Document Editing & Review Comments
Enables real-time feedback and document revisions

Dashboard and Repository
Provides a central hub for managing and accessing documents

Quality Review
Ensures document accuracy and compliance through predefined checklists

Collaborative Workspace
Enhances teamwork and productivity with shared reviewing and editing

Audit Trails
Tracks changes and access to maintain document integrity

Queue Management System
Organizes and prioritizes document review tasks efficiently

Multiple Business Models

Service Model
FSP delivers Clinical & Regulatory Documents to clients

Licensing Model
Clients onboard and operate the DocQC platform independently
