

GENINVO™

PI Nexus™

PI Nexus™ connects site intelligence, portfolio direction, relationship management, and coordinated engagement, helping sponsors and sites work more strategically together across studies and over time.

The Challenge

Fragmented Information

Site intelligence spread across systems, files, and individuals

Study-by-Study Execution

Knowledge and lessons learned are not reused effectively

Uncoordinated Engagement

Teams engage sites without shared visibility

Limited Network Visibility

Capability and capacity gaps are often identified too late

The Strategic Approach to Site Engagement

Connected Intelligence

Relationship Development

Continuous Learning

A connected network where site knowledge, relationships and insights grow stronger with every study

How PI Nexus™ Works

A connected approach that turns site intelligence into stronger relationships and better outcomes

Let's Explore Together

Understand your network today

Identify opportunities and gaps

Strengthen relationships that matter

Prepare your network for what's next

Why GenInvo

Intelligence That Connects

Unify site, investigator and relationship intelligence across studies

Strategy That Guides

Align investigator networks with portfolio priorities and future needs

Relationships That Deliver

Create stronger partnerships through coordinated engagement
